

Non-GPA modules

Support Admin - 2025-05-14 - Registration

What are the non-GPA modules in Faculty of Computing, SLIIT Business School/Faculty of Engineering, and Faculty of Humanities and Sciences?

Non-GPA modules are modules components of the academic program that do not contribute to the calculation of a student's Grade Point Average (GPA).

Sometimes a specific study program of a Faculty might make such Non-GPA modules compulsory as a graduation requirement.

However, students who are registered to these modules are required to attempt these modules and obtain a pass mark to be eligible for graduation. If a student needs to repeat a non-GPA module, they must register for it under the prorated module registration category.

Faculty of Computing	Faculty of Engineering	Faculty of Humanities and Sciences
IT2100 - Employability Skills Development - Seminar	CE3922 - Civil Engineering Seminar	SC4173 - Forensic in Biotechnology
