# Useful online resources for SLIIT students

SLIIT Website (URL: <https://www.sliit.lk/>)

This website serves as the primary source for comprehensive information related to the institute, including programme details, applicable course fees, academic and non-academic staff profiles, and contact information.

Courseweb (URL: <https://courseweb.sliit.lk/>)

This is the primary communication platform through which all official information is disseminated to students. General notices are published on the homepage, while faculty-specific announcements are available on the respective faculty pages. Students gain access to the CourseWeb upon successful enrollment.

Supportdesk (URL: <https://support.sliit.lk/>)

All registered students are advised and encouraged to submit their inquiries through the Support Desk in which a Knowledge Base is available with helpful articles, and important documents can be accessed for review. Students can log in using their SLIIT email address and are expected to follow the appropriate inquiry paths when submitting requests.

Eduscope (URL: <https://lecturecapture.sliit.lk/>)

Students can access lecture recordings via this link. To log in, they must use their SLIIT email address and password. Student Portal

Student Portal (URL: <https://student360.sliit.lk/>)

Students are required to complete their registration through the Student Portal, following the instructions provided in the registration notices. The portal also provides access to registered module details, payment information, examination hall allocations, and results. Students can access the portal using their registration number and password.

SLIIT Email (Example: ITXXXXXXXX@my.sliit.lk)

SLIIT email addresses are provided to students upon successful completion of enrollment. If a student needs to reset their password, they can use the "Forgot Password" feature to change their Office 365 account password, which can then be used to access other related services.
